

Dear Colleague,

We would like to ask for your collaboration in reminding your member's Society about the possibility of joining the EMS as an individual member paying an annual fee of 24 Euros.

Most likely, you already are or will be soon in the process of collecting the annual fees of your members. Therefore, this could be a good opportunity to help us in making the EMS better known among mathematicians in your country.

Also, you might consider the possibility to arrange a link from the website of your society to the EMS website <http://www.euro-math-soc.eu/> if you do not have it yet.

In the attachment you will find some information about benefits and reasons for joining the EMS.

Thanks a lot for your help.

Alice Fialowski
EC member
European Mathematical Society
